FOX SCRIPT PACK V1

Five small scripts. The boring parts, one click.

V1.2

MAC · WINDOWS UNTESTED · AE 2022+

Install

01

Copy 6 files

The five `.jsx` files and `Fox_Update.jsxinc`.

Into ScriptUI Panels

Mac: `/Applications/Adobe After Effects <version>/Scripts/ScriptUI Panels/` · Windows: `...\Support Files\Scripts\ScriptUI Panels\`

Allow scripts

Settings › Scripting & Expressions › tick **Allow Scripts to Write Files and Access Network**

Restart After Effects

Then Window menu › pick a Fox script. Dock it.

First 60 seconds

02

Fox Ease

Select keys › click Clean. Cmd/Ctrl+Z undoes it.

Fox Stagger

Select layers › 2 frames › Stagger.

Fox ReadBack

Read the comp › paste the report into your AI.

Save first

Every change is one undo step. Save anyway.

■ Updates 03

Checks once a day

A newer pack? One one-line alert, once. No nagging.

Needs the setting above

Off or offline = silent. Skip it: leave `Fox_Update.jsxinc` out.

Sends nothing about you

A plain download. Nothing it reads is run as code.

■ Help 04

hello@foxinthecomp.com

Tell us which script, which After Effects version, and what you saw.

foxinthecomp.com/help/scripts

■ What else Fox makes 05

FoxBridge

Your AI, wired into After Effects.

The Fox Manifesto

6 gates. 20 rules. Templates.

The Fox Prompt Pack

39 prompts for clean comps.
